gowrimakki@gmail.com || 7993876860 || [Linkedin](#) || [GitHub](#) || Kavali, Nellore District, AP - 524201

Career Objective:

Recent Computer Science (Artificial Intelligence) graduate with a strong foundation in **Python, SQL, Web Technologies and ServiceNow**. Looking for an entry-level opportunity to leverage my technical skills, learn emerging technologies, and build impactful software solutions.

Education:

B. Tech: Computer Science & Engineering – Artificial Intelligence

PBR Visvodaya Institute of Technology and Science, Kavali, Andhra Pradesh – 90% || Sep 2022 – April 2026

Intermediate: MPC

Sri Sai Junior College, Kavali, Andhra Pradesh – 92% || Mar 2020 – 2022

SSC

RR English Medium High School, Kavali, Andhra Pradesh – 95% || Mar 2020

Internship Experience:

AI Intern — NexusNow.ai | Sep 2025 – Mar 2026

- Worked on developing the NexusNow Portal similar to ServiceNow, gained hands-on experience with UI components, portal development, and real-time project workflows in an onsite environment.

Data Analyst Intern — Axcentra | Dec 2025 – Mar 2026

- Assisted in data analysis, SQL-based data handling, reporting, and gained practical exposure to real-time analytics workflows and business insights generation.
-

Projects:

Fitness Assistant – BMI Calculator – [GitHub](#)

- Collaborated in a team to design a responsive BMI calculator that provides personalized fitness suggestions.
- **Role:** Frontend Developer – designed UI, implemented validation, ensured responsiveness.
- **Technologies Used:** HTML, CSS, JavaScript.

Responsive Tour & Travel Booking Website – [GitHub](#)

- Developed a responsive travel booking website with features like tour browsing, booking interface, and mobile-friendly design.
- **Technologies Used:** HTML, CSS, JavaScript, Bootstrap.

AI-Based Real-Time Traffic Flow Analysis & Signal Optimization System – [GitHub](#)

- Collaborated in a team to develop our final year major project an **AI-based real-time traffic management system** using YOLOv9 and DeepSORT for vehicle detection and tracking
 - **Role:** Team Lead as well as AI & Full Stack Developer – implemented vehicle detection and tracking, and contributed to dashboard development.
 - **Technologies Used:** Python, OpenCV, PyTorch, Flask, React, YOLOv9, DeepSORT.
-

Certifications & Achievements - [Link](#)

- Certified Application Developer (CAD) – **ServiceNow** (Jun 2025)
 - Certified System Administrator (CSA) – **ServiceNow** (Dec 2025)
 - Java Full Stack Development Certification – **TalentNext (Wipro)** (Jul–Oct 2025)
 - Data Analytics Certification – **Deloitte** (May–Jun 2025)
 - Artificial Intelligence Certification – **Elewayte** (Jan–Feb 2025)
 - Frontend Development Certificate – **Cognifyz Technologies** (Jun–Jul 2025)
 - Data Analyst Certification – **Axcentra** (Dec 2025–Mar 2026)
 - Participated in SQL using AI tools workshop conducted by **AI For Techies** (July–2025)
-

Technical Skills:

- **Programming Languages:** Python, SQL
- **Web Technologies:** HTML, CSS, JavaScript
- **AI & Data:** Artificial Intelligence, Machine Learning
- **Tools & Platforms:** Visual Studio, ServiceNow, MS Office (Word, Excel, PowerPoint)
- **Soft Skills:** Communication, Problem-Solving, Teamwork, Adaptability, Time Management, Analytical Thinking
